MARCH 2020

ON THE COVER

Imagine giant 25 to 30-foot tall bunnies glowing in Pinecrest Gardens' meadow right before dusk and into the evening. Add Glowga, art activities for kids and live performances, and you have Bigger Bunny Invasion. This April Pinecrest Gardens is tossing out the traditional "hunt", and replacing it with relaxing weekend evenings where both children and adults can play. Edgy and ephemeral, Bigger Bunny Invasion is a public light-art installation that blends fine art and community to ignite imaginations while providing the perfect setting for families to unwind, create and learn. Guests are encouraged to brush up their selfie skills because the "bunnies" are going to be on everyone's social media feed. Use #BiggerBunnyInvasionPG.

a MESSAGE to the VILLAGE

MAYOR'S MESSAGE

Joseph M. Corradino

Pinecrest Counts!

The decennial census is mandated by the U.S. Constitution and is the foundation of fair and equitable representation in the U.S. Congress. The census data is used to determine how many seats in the U.S. House of Representatives are allotted to each state in order to ensure fair representation. The information is used to draw congressional, state and local districts for our elected representatives and helps to maintain the democratic principle of one person, one vote.

The 2020 Census will also determine how communities, like Pinecrest, get their fair share of funds from the Federal and State governments over the next decade. The data compiled from the 2020 Census will directly affect how more than \$1.5 trillion of federal funds is allocated to state and local governments each year. The statistical information gathered can also shape decisions about public health, capital improvements, transportation, education, senior services, and many other public policy matters.

By April 1, 2020, each household will receive an invitation to respond to the short questionnaire. Respondents will have the option of responding online, by phone or via U.S. Mail. The 2020 Census questionnaire will ask for basic information including name, gender, age, race, ethnicity, relationship, and home ownership status. It will take the average household about 5-10 minutes to complete the form. The form will be available in many languages, including Spanish, to ensure that the nation's increasingly diverse population can answer the questionnaire accurately and completely. The goal is to count everybody, count them only once and count them in the right place.

Responses to the 2020 Census questionnaire are required by law. All responses are used for statistical purposes only. Federal law protects the confidentiality of the data collected by the U.S. Census Bureau. Please take a few minutes to respond. Let's make sure Pinecrest counts! For additional information, please visit www.2020census.gov.

MANAGER'S MESSAGE

Yocelyn Galiano

I am impressed by the high level of service that our police department delivers every single day. I see it. I hear it from residents. And now, I can proudly announce that the department has received one of the most distinguished recognitions in the State of Florida, the Excelsior Recognition by the Commission for Florida Law Enforcement Accreditation (CFA).

The Excelsior Recognition program recognizes some of the finest criminal justice agencies in the State of Florida. For 15 years, the department has met criteria that demonstrates an exceptional commitment to the Florida accreditation process. CFA assessors inspect the department every three years. Accreditation ensures the department is following, already proven, industry best practices.

The department currently holds triple accreditation by CFA, the Commission on Accreditation for Law Enforcement Agencies (CALEA) and the Florida Telecommunications Accreditation Commission (FTAC).

Kudos to the department for its consistent achievements.

2020 CENSUS PINECREST COUNTS!

2020 will be easier than ever...

In 2020, you will be able to respond to the census online.

It's about fair representation

Every 10 years, the results of the census are used to reapportion the House of Representatives, determining the number of seats for each state.

It's in the Constitution

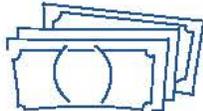

The U.S. Constitution mandates that everyone in the country be counted every 10 years. The first census was in 1790.

Everyone counts!

The census counts every person living in the United States once, only once, and in the right place.

Federal \$\$\$

The distribution of more than a trillion dollars in federal funds, grants, and support to states, counties, and communities are based on census data. That money is spent on schools, hospitals, roads, public works, and other vital programs.

Your privacy is protected

It's against the law for the Census Bureau to publicly release your responses in any way that could identify you or your household. By law, responses can only be used to produce statistics.

Redistricting

After each census, state officials redraw the boundaries of the congressional and state legislative districts to account for population shifts.

Taking part is your civic duty

Completing the census is mandatory: it's also a way to participate in our democracy and say "I COUNT!"

PINECREST CELEBRATES 911 CENTER RENOVATION

The Village celebrated the renovation of the 911 Communications Center with a ribbon cutting ceremony on February 10, 2020. The Communications Center was established in 1999 and serves the residents and businesses of Pinecrest. It is one of seven Public Safety Answering Points (PSAP) in Miami-Dade County. Others locations include Coral Gables, Hialeah, Aventura, Miami Beach, Miami and Miami-Dade County.

The Pinecrest Police Department 911 Communications Center is the first Public Safety Answering Point (PSAP) in Miami-Dade County accredited by the Florida Telecommunications Accreditation Commission (FTAC). This prestigious communications accreditation designation makes the Police Department the first agency in South Florida accredited by three accreditation commissions.

Accreditation ensures the department is following, already proven, industry best practices. The FTAC program began in 2013, as a way to specifically recognize the professionalism of communications center personnel.

NEWS & NOTES

PINECREST YOUTH SERIES

Join us for free age-appropriate workshops designed specifically for teens, hosted by Pinecrest's Youth Advisory Council and Youth Volunteer Corps. The Pinecrest Youth Series began in November with a well-attended workshop on Driving Under the Influence, followed by a workshop about Successful College and Job Interviews. In January we had a session on Stress Management in collaboration with Baptist Health South Florida. In February, we learned about Human Trafficking and how it does not discriminate, affecting teens from all types of backgrounds.

On Friday, March 13, the topic will be Gun Violence and Safety and on Friday, April 3, the topic is Teen Mental Health Day. Workshops start at 4:30 p.m. and are held at the Pinecrest Community Center, 5855 Killian Drive. All teens from Pinecrest and neighboring communities are welcome to attend.

Rotary

Club of Pinecrest

LOOKING FOR NEW MEMBERS

The Rotary Club of Pinecrest is looking for new members. Current members have been with the Rotary for many years, and it is time for them to start mentoring an incoming group of professionals who believe in "service before self"—the club's motto.

Currently, the Club is working on hosting the first "Burger Brag" event in Pinecrest on Sunday, April 19 to benefit children with disabilities. Eateries are encouraged to think outside of the box - from traditional hamburgers to veggie burgers and we hear we might even have a conch burger entry.

The Club pulls from members' expertise to create successful events that benefit the community. For the Burger Brag event, professionals from industries that include public relations, marketing, event production, parks programming and finance lent their expertise to create this special initiative.

The Club has a history of local and international success stories. Rotary collaborated with Bill Gates to address polio worldwide, and traditionally collects gifts for children in need during the holidays.

Meetings are held twice a month on the second and fourth Wednesday at 6:30 p.m. at Leslie Bowe Hall in Evelyn Greer Park, 8200 SW 124 Street. For more information about how to join, please contact Eric Gressman at 305.503.0580 or egressman@kelleykronenberg.com.

CAPITAL IMPROVEMENT RUNDOWN

VILLAGE-WIDE TRANSPORTATION MASTER PLAN

In 2018, the Village Council adopted a Transportation Master Plan in an effort to enhance mobility and to provide traffic calming Village-wide. The Village Council approved a list of projects for 2020, which include traffic calming initiatives, sidewalk improvements, traffic operational improvements and an on-demand, free electric car service. Traffic calming initiatives include speed tables, speed humps, traffic circles, chicanes, and diverters. For specific locations or questions related to these improvements, please contact the Public Works Department at publicworks@pinecrestfl.gov or 305.669.6916.

STREETSCAPE BEAUTIFICATION

The Village developed and began implementation of a new Streetscape Master Plan during the summer of 2019. The plan includes upgrading all stop signs, street signs, bus benches, and trash receptacles Village-wide. The upgrades include new green decorative sign posts, new signs, green sign borders and combining stop sign and street signs on the same post to reduce "pole pollution". This is an ongoing effort that will continue through the 2020 calendar year.

STORMWATER MASTER PLAN IMPLEMENTATION

The Public Works Department is working on localized drainage projects based on the results of a 2015 Village-wide Stormwater Master Plan. Project priority is provided to areas which have repetitive standing water after storm events. The goal of initiative is to improve the stormwater infrastructure system and improve the quality of runoff flowing into canals and closed French drain systems. Over 200 new storm drains have been installed since the completion of the master plan. The ongoing improvements are constructed based on priority and funding availability.

VILLAGE ENTRANCE FEATURE MONUMENT SIGNS

The Village developed the plan for the monument signs, which was successfully bid and approved by the Village Council at the end of 2019. Construction of the six signs is anticipated to commence in the summer of 2020.

The Parks and Recreation Department manages the Pinecrest Community Center and all public parks in the Village including Coral Pine Park, Flagler Grove Park, Evelyn Greer Park, Red Road Linear Park, Suniland Park, Veterans Wayside Park and the Village Green.

HIBISCUS GALLERY

MARCH

LONGITUDINAL INSTALLATION by Xavier Cortada

Location: Hibiscus Gallery
Performance of Longitudinal Installation
Friday, March 20 at 10:30 a.m.

The intention of Longitudinal Installation is to initiate engagement between people in response to climate change. This is seen not only within the actual installation but also with how Cortada invites his audience to participate with the work. This interaction allows for the work to function as a sort of archival performance, one that records the efforts of those who are involved concurrently. On Friday, March 20, Cortada invites the community to participate in a performance of the Longitudinal Installation to welcome the new season onsite during the Spring Equinox. Learn more at www.cortadaprojects.org/longitudinal.

APRIL

MIAMI MANGROVE FOREST by Xavier Cortada

Location: Hibiscus Gallery
Exhibition of Miami Mangrove Forest and Seedling Giveaway
March 20 through April 22

Initiated in 2004, Xavier Cortada's expansive public mural underneath the underpasses of I-95 explores the evolving dichotomy between the natural and built environments. Mangroves, an essential aspect of much of Cortada's work, were chosen for their native heritage to the South Florida area.

Fifteen years after Miami Mangrove Forest, Cortada led the creation of Pinecrest Mangrove Forest, a mural that depicts the fully-grown mangrove forest the seedlings from the original mural would eventually become. However, Pinecrest Mangrove Forest functions more than just a metaphoric reforestation of the local area, but as a prompt for literal reforestation, a conceptual and practical evolution from its predecessor. This is accomplished through its resonance with Cortada's Plan(T) project, an ambitious effort to plan for the future through the act of planting mangroves throughout Miami.

This exhibition will culminate with the distribution of mangrove seedlings on April 22, the 50th anniversary of Earth Day, from 3:00 to 5:30 p.m. Learn more at www.cortadaprojects.org/miami-mangrove-forest-exhibit.

MAY

UNDERWATER HOA by Xavier Cortada

Location: Colonnade & Hibiscus Gallery
Colonnade Exhibition, Saturday, April 25
Monthly Meetings, Every first Wednesday at 7:00 p.m.

Mapping the topography of a conceptual coastline is the basis of Cortada's Underwater HOA project, necessary "to make the invisible visible." Working in conjunction with Cortada's Antarctic Ice Paintings from 2006, Underwater HOA is a participatory art project that depicts South Florida's vulnerability to sea-level rise, specifically this vulnerability towards homeowners within South Florida. The goal of this project is to inform citizens on the impending issue of sea-level rise while also facilitating discussions of change within the community by holding monthly "HOA" meetings. As part of the project, Cortada worked with the Village of Pinecrest to encourage its residents to install a "marker" in their front yard. This marker is a yard sign that depicts the house's current elevation above sea level with the backdrop of Cortada's Antarctic Ice Paintings.

On the first Wednesday of every month, Underwater HOA meetings will be held at the Hibiscus Gallery in Pinecrest Gardens.

Everyone in Miami-Dade County is welcome to participate in these meetings and contribute to the critical discussions surrounding sea-level rise and climate change in our community. Additionally, an Underwater HOA exhibition will open in the Colonnade starting Saturday, April 25. Learn more at www.cortadaprojects.org/underwaterhoa.
