

# REOPENING PINECREST

**IT TAKES A VILLAGE. TOGETHER WE CAN STAY OPEN. #PINECRESTKIND**

Safety Equals Customer Loyalty.

Consistently following and enhancing safety measures will establish trust in your business. Additional suggested safety measures provided by Miami-Dade County can be found at [www.pinecrest-fl.gov/coronavirus](http://www.pinecrest-fl.gov/coronavirus).

*The safety measures listed below are mandatory per Miami-Dade County.*

---

## RETAIL STORES & SMALL BUSINESSES

- Open at a maximum of 50 percent occupant capacity.
- Secure a single point of entrance and exit.
- Facial coverings must be worn at all times by everyone.
- Merchandise, particularly clothing, must not be handled or tried on by customers and returned to shelves or display racks before being properly cleaned.
- Cart and basket handles must be sanitized between uses.
- Mark entry and exit points with arrows, creating one-way circulation paths inside stores.
- Post owner contact email address and/or telephone number for customers.
- Employees and customers must sanitize their hands before entering a business. If a hand sanitizer shortage occurs, access to hand washing with soap and water must be provided.
- Place trash containers for face masks, gloves and other personal protective equipment (PPE) near exits and entrances and other common areas.
- Space out customer queues for fitting rooms and at cashiers with floor markers every 6 to 8-feet
- Provide various opportunities for staff and customers to frequently disinfect their hands by placing hand sanitizer at multiple locations.
- Sanitize all common areas and touch points frequently - doors, handles, light switch and the like.
- Procure increased amounts of soap, hand sanitizer, cleaning materials and personal protective equipment.
- Eliminate the use of common water fountains and interactive displays.
- A comprehensive cleaning of the store must be performed each night and include thoroughly disinfecting all frequent touch points and emptying all trash receptacles using solid waste bags that are double-bagged and securely sealed.
- Implement a mandatory 14-day quarantine for all at-risk employees.
- If faced with an infection, immediately report the number of infected, timing of infection and proposed remediation plan to the Florida Department of Health. All staff must be tested, deep sanitation of workplace must be conducted, and the entire office building including non-affected spaces must be closed until all common areas are sanitized.

Be Safe. Be Kind.  
**#PinecrestKind**

Failure to comply can result in fines up to \$500 per violation and/or closure of business.
